DEALER INFORMATION

HIGH BED

○ Premium Memory Foam Mattress

● MASON MEDICAL SERIES 1100 SHEARCARE™ PRESSURE REDUCING MATTRESS.

● This technically advanced mattress provides remarkable day-long comfort and support.
● Covered in fluid-resistant, anti-microbial/anti-bacterial, fire-retardant stretch Nylon fabric,
● the mattress provides four unique comfort zones for support and pressure relief. The top level
● is all-virgin *Memory-III™ Visco Elastic* memory-foam that contours to the body. For complete
● technical and construction details, visit our web site: www.SleepSafeBed.com.

No Room to Burrow

The *SleepSafe* precision-fit custom mattress fits tightly within the bed frame. Even with aggressive compression, it is virtually impossible to burrow deeply enough to create an entrapment issue or safety hazard.

Easy-access Safety Rails ○

Safety rails on the *SleepSafer* bed extend 17 to 38.5 inches above the mattress, depending on foundation choice. They can be quickly rotated out of the way to provide immediate access, and are also easily removed.

Foundation Choices ○

FIXED – The mattress rests on a fixed foundation, which can be either a box spring or bunkie board, depending on your preference.

ARTICULATED (semi-electric) – The mattress rests on a foundation that has both head and feet articulation, with motor-controlled movement conveniently operated by wired remote control.

ARTICULATED and HI-LO (fully electric) – The mattress rests on a foundation that has both head and feet articulation, and is also height adjustable. The mattress can be adjusted from 22 to 38 inches from the floor, with all movement motor-controlled, operated electrically by wired remote control.

All foundations are designed to support up to 350 pounds.

Easily Moved ○

Locking casters provide excellent mobility.

Available in YOUTH, TWIN or FULL

The SleepSafer Bed-High is available in:

YOUTH – 32 inch wide by 60 inch long mattress.
This bed is only available in the FIXED foundation.

TWIN – 38 inch wide by 77 inch long mattress

FULL – 52 inch wide by 77 inch long mattress

Maximum Safety

SleepSafe beds are a proven, ultra-safe solution for virtually eliminating entrapment and falls. Unique in the industry, these beds meet or exceed FDA guidelines on the **7 Zones of Entrapment**.

Unexpected Style

A bedroom isn't a hospital room—and it shouldn't look like one. The stylish **SleepSafe** beds set new standards for attractiveness and safety.

○ Safety Rail Windows

Clear non-breakable windows are available as an option for the back side of the bed to provide visibility for both the occupant and caregiver when the need to see or be seen is important. The bed pictured on left includes the **DUAL VIEW** safety rail option.

Standard configuration of the Sleepsafer bed with access from one side.

Optional Accessories

DUAL VIEW – Safety rails on both sides of the bed include windows.

CUSTOM FIT PADDING – Available for one or all sides for protection from contact with the bed frame. 3/4 inch high-density foam encapsulated in easily-cleaned and waterproof PVC coated nylon.

IV ATTACHMENT – A 36 inch tall stainless steel pole with two Ram hooks that attaches securely to the headboard.

HEADBOARD/FOOTBOARD WINDOWS – Attractive non-breakable windows are available for both the headboard and/or footboard for increased visibility.

○ Wood Choices

Beds are constructed of wood, with choices including:

OAK – Extra-hard and highly durable. Typically highlights a natural wood grain.

MAPLE – Lighter colored, more contemporary hardwood. Shows very little grain pattern.

CHERRY – A rich hardwood often selected for its distinctive combination of beauty and durability.

Patented Design

SleepSafe beds are recognized as the ideal choice for children or adults with cognitive or physical disabilities. Our user-friendly safety system with releasable guard rail assembly holds a US Patent number 6,453,491.
